### **DETAILED ACTION**

The Amendments and Remarks filed 29 September 2004.

#### ***Allowable Subject Matter***

Claims 1-18 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

The best prior art of record discloses a light-emitting device comprising all of the elements required by claims 1,7 and 13, including a first and second substrate and a luminous element. However, the prior art fails to teach or fairly suggest a light-emitting device having a structure wherein the luminous element is located between the first and second substrates, as claimed in claims 1,7 and 13. Claims 2-6,8-12 and 14-18 are allowable by virtue of their dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
